### ***WarZone Girls***

WarZone Girls is an online comic book series that CHI anticipates releasing on a quarterly basis. [Volume 1, Issue 1, “The Fight for Honor Begins”](#), is available for free and can be read from the website or downloaded onto a [Kindle™ device](#) (the download fee to a Kindle device is \$0.99). Set in the future after the Last War, the single World Government exists to serve the corporations who run the world. The corporations are in turn run by The Council, led by Marcus Lucadian, a former military General who is focused on the final subjugation of mankind. Aided by a hideous army of half-human/half robotic soldiers called Technocrats, Lucadian wages a war on all those who oppose The Council. Enter the WarZone Girls...Solitaire, StealthFalcon, SteelWolf, SilentWidow, and SavageRain – the S-Squad...five female mercenaries targeted for immediate execution by the World Government. These women are part of an underground resistance movement whose singular mission is to destroy The Council with the help of Solitaire’s brother, Alex. Alex works within The Council and secretly aids the WarZone Girls in their quest to save mankind.

### ***WarZone Secure Update and Free Playing Credits***

- ***WZS Update***

CHI further announced that it anticipates launching its FPS tournament site in Fall 2013. The Company will offer Gamers a wide variety of FPS tournaments, conducted in an environment that uniquely provides a cheat-free “level playing field” using proprietary and patent pending anti-cheat technology. WarZone Secure will provide multiple match levels for the most popular FPS games. Matches are designed to allow individuals, small teams and Clans to compete for cash and other prizes, with different tournament levels for amateurs and extreme FPS Gamers. The Company’s tournament structure is intended to address a large, unmet need – providing Gamers who desire to compete in events that require a relatively small upfront fee with the opportunity to win cash prizes and credits.

- ***Free Playing Credits***

Individuals who sign up to join CHI’s [WarZone Secure tournament website](#) and verify their e-mail address will receive 200 playing credits for use when the site launches. Those who refer other individuals will be provided a unique code-identifier, and for each person that they refer to the site who uses the code-identifier, signs up and verifies their e-mail address, the referring party shall receive an additional 20 playing credits per person, for referring up to 50 people; 40 credits per person for referring up to another 50 people, and 75 credits per person for referring up to another 100 people. The maximum referral credits awarded to any individual are 10,500. Playing credits are used to enter over 40 different tournament types where Gamers can win cash and other prizes.

CHI, whose development team includes Gamers from the US and Europe, is also seeking gaming “influencers” (WarZone Ambassadors) to assist the Company in expanding its customer base around the world. If you are interested, we’d love to hear from you: for those who make the cut, we offer Free Playing Credits, stock options and cash bonuses. Please [contact us](#).
